

Department Store

Due No Due Date **Points** 100 **Submitting** a website url

For your assignment you will be creating a department store with multiple departments, and each department has items for sale.

BASIC OBJECTIVES:

1. Create a department model and an item model. (A department "has many" items for sale).
2. Using nested routes allow departments to have items.
3. Create controllers for your two models that account for all CRUD actions.
4. Create views for your models.

BONUS OBJECTIVES:

1. Add a comment model. (An item "has many" comments). Rework your routes accordingly.
2. Create comment controller. Display comments when viewing an item.
3. Rating Model (calculate average in model method)
4. Add to cart functionality
